Dear Tony:

See attached letter. Before I go having any ideas, tell me: what happens to these magazines when they arrive out here? I seem to recall seeing a recent news item about the arrival of some. Who distributes? Where? Any report-back to Los Angeles as to where they have been sent? Any problems regarding same?

It all seems a little haphazard, but from what I have heard, this man seems to be doing a greatly needed job under the usual difficulties. How is his effort judged in official circles, do you think? What practical effort could be made at this end, in addition to what is already being done, to distribute such magazines here, and also to get Indian magazines sent to the USA? Any thoughts on the matter?

Regards,

Julie Medlock
